## Annual Evaluation Of Training Program V.3

Evaluator: [First Name] [Last Name]

Evaluation Period: [99/99/9999] to [99/99/9999]

### Core Competencies

#### Patient Care

There was adequate diversity and complexity of patient problems.	
--	--

There was adequate diversity of patient problems and characteristics in the General Medicine clinics.	
---	--

There was adequate diversity of patient characteristics such as age, gender, and socio-economic status.	
---	--

I had adequate continuity with my clinic patients (clinic appointments, notification of hospital admissions, post-hospital followup).	
---	--

I had sufficient responsibility for decision-making in the patients under my care.	
--	--

I had ongoing responsibility for most of the patients I admitted.	
---	--

I had experience in caring for some adolescent patients (age 21 or less).	
---	--

I had adequate experience in preventive care.

## Secondary Competencies

### Educational Experience

I was able to attend most of the conferences.

The subspecialty clinic/consultation rotations were generally a valuable learning experience.

I received timely and appropriate feedback from the faculty.

I had adequate guidance in the research I wanted to perform.

Noon conferences were generally a valuable learning experience.

Morning report was generally a valuable learning experience.

The General Medicine ward rotations were generally a valuable learning experience.

The subspecialty ward rotations were generally a valuable learning experience.

The Intensive Care Unit rotations were generally a valuable learning experience.

The General Medicine Continuity Clinic was a valuable learning experience.

My experience in clinics outside the Department of Medicine was valuable.

The faculty members contributed significantly to the teaching I received.

Patient care service obligations often interfered with my educational experience.

## Facilities

On-call rooms and facilities at LSUHSC were clean and adequate to ensure rest, safety, and privacy when you were on call.

On-call rooms and facilities at the VA Medical Center were clean and adequate to ensure rest, safety, and privacy when you were on call.

The number and attentiveness of nursing personnel in the clinics was adequate.

Space for ambulatory patient care and teaching was adequate.

Hospital support services at LSUHSC were sufficient to help me care for my patients.

Hospital support services at the VA Medical Center were sufficient to help me care for my patients.

Adequate computer terminals were available for managing patient care.

## Procedures & Practical Experience

I had adequate opportunity to develop proficiency in performing and interpreting the results of procedures that are utilized in the practice of General Internal Medicine.

## Work-Load & Hours of Duty

Averaged over each rotation, I was on duty no more than 80 hours per week.

Averaged over each rotation, I had at least one day in seven free of all patient care and educational responsibilities.

I was responsible for a reasonable number of admissions per 24/48 hour time periods (PGY-1=5/8, PGY-2, 3, 4=10/16)..

The time demands were reasonable and allowed me to get my work done.

## Overall/Summary

Overall, I am satisfied with my experience in the residency over the past year.

I often had feelings of frustration

I had a good relationship with most other residents.

I generally felt that other residents were helpful and contributed their share of the work load.

The program has challenged me to do my best.

I had adequate guidance from my faculty mentor.

The program directors, chief residents, and other program personnel were responsive to problems, including personal problems that I brought to their attention.

I often felt fatigued or "stressed out."

The program had significant strengths. (Specify below)

Comments and/or Observations:

The program has significant weaknesses. (Specify below)

Comments and/or Observations:
