

Student Clinical Rotation

Objective:

The Radiology Department at LSUHSC-Shreveport is committed to providing excellence in imaging and patient care. The educational program is responsible to provide all students an equal and fair treatment and clinical opportunity.

Directive:

In coordination with the Director of Radiology Services and the individual managers for the sections of radiology the Educational Coordinator will assume some of the responsibilities for education opportunity of students who rotate through the Radiology Sections at LSUHSC in Shreveport.

Goals:

1. Provide a service for students to gain information pertaining to the field of Radiology.
2. To provide a clinical site with the opportunity for rotation in each section of Radiology.
3. Improve student motivation and further their interest in the field of imaging.
4. To develop good rapport with students and University faculty.

Policy:

1. An approved contract must be in place between LSUHSC and the program before clinical rotations can begin.
2. Orientation is mandatory for all students prior to clinical rotations at LSUHSC-Shreveport.
3. The Radiology Education Coordinator will act as a liaison for both the schools and department managers. This employee will be responsible for:
 - a. Ensuring that students have completed mandatory training such as fire safety and right to know.
 - b. Investigating any complaints regarding student performance and/or behavior. This information will be presented to the Director of Radiology and the program director so that an acceptable solution can be developed.
 - c. Investigating complaints from students/staff.
4. The Radiology Education Coordinator will receive a copy of all check offs and competencies that will be performed in all sections of Radiology at LSUHSC-Shreveport.

5. All elective rotations are subject to prior approval through the office of the Radiology Education Coordinator.
6. A schedule of all student clinical rotations will be given to the Radiology Education Coordinator prior to the start of a new semester.
7. The Radiology Education Coordinator will copy and deliver each section of Radiology with students, a copy of the student clinical rotation schedule.
