

**LOUISIANA STATE UNIVERSITY HEALTH SCIENCES CENTER
SHREVEPORT**

SAFETY MISSION STATEMENT

The Mission of Louisiana State University Health Sciences Center-Shreveport is to provide a safe and healthy environment in which hazards are eliminated or minimized for patients, visitors and employees and by which work-related injuries/illnesses are minimized through a program of hazard reduction, elimination, engineering controls, personal protective equipment, education and work-site surveillance.

In order for LSUHSC-S to succeed in reducing accidents, hazards, and risk exposure, each employee of this agency is instructed to devote daily attention to making his or her activities and/or operations as safe and accident free as possible by complying with this mission statement and the LSUHSC-S Safety Program.

The Environmental Health and Safety Director is committed to administering this mission statement and safety program for LSUHSC-S.
