LAY SUMMARY ................................................................. 2
BUDGET PAGE ................................................................. 3
OTHER SUPPORT ............................................................... 4
REVIEWERS CRITIQUE OF PREVIOUS SUBMISSION* ....................
RESPONSE TO REVIEW ....................................................... ___

APPENDIX: LIMIT TO THOSE ITEMS ABSOLUTELY NECESSARY FOR
GRANT REVIEW

*At the time of submission, if critiques are not yet received, this application will not be considered for funding during this review cycle.

The format for the research plan will be determined by the funding agency (e.g., NIH, NSF, USDA, ACS) that provided recent support to the applicant.

Include the following in your Bridging Award Application

1. The most recent version of the proposal under consideration must be submitted along with reviewer summary sheets.

2. Also to be included in proposal is the response to the reviewers' critique, either as a separate section, page limit = 3, or included in the body of a revised submission.

3. **Relevance to Heart Disease and/or Cancer.** Briefly state the relevance of proposed research to heart disease and/or cancer. The Edward P. Stiles funds were given to LSUHSC-S for the purpose of encouraging research in heart disease and cancer. This section must be completed in order for the application to be evaluated.
INTRAMURAL RESEARCH SUPPORT
AWARD APPLICATION: LSUHSC-S

BRIDGING AWARD

(To be completed by Principal Investigator)

Principal Investigator: ___________________________________________________________

Last Name    First Name    Middle

Position: ___________________________________________________________ SSN: _____________________

Department: ___________________________________________________________

Project Title: ___________________________________________________________

Funding Sources: THE EDWARD P. STILES TRUST FUND - LSUHSC - S and
THE BIOMEDICAL RESEARCH FOUNDATION OF NORTHWEST LOUISIANA

Deadline: 2:00 p.m. Friday, October 29, 2004

Period of Application (1 Year): January 1, 2005 to December 31, 2005

Amount Requested: $_____________________________ ($40,000 maximum)

Relevance to Heart Disease and Cancer. Briefly state the relevance of proposed research to heart
disease and/or cancer. The Edward P. Stiles funds were given to LSUHSC-S for the purpose of
encouraging research in heart disease and cancer. This section must be completed in order for the
application to be evaluated.

Principal Investigator Signature   Department Head Signature

Submit Original and 5 Copies of Application to Grants Office   Room 1-214

I. Objectives, eligibility criteria, restrictions and expectations for each award are outlined on
page 1a.

II. Page Limitations: Research plan must reflect experiments designed to be completed in one
year.

III. Budget: Budget should include sufficient funds for the proposed project, but should not
exceed maximum level recommended for relevant award (see page 1a).
LSUHSC/BRF INTRAMURAL RESEARCH AWARDS

Bridging Award

Funding level $40,000

Objective: Maintain research efforts and enhance competitiveness of faculty who are between national funding awards

Eligibility: Recent (<2 yrs) principal investigator of grant (≥ $75,000 direct costs) from national agency; actively engaged in effort to restore grant funding (revision/resubmissions)

Application procedure: Most recent submission to funding agency with review summary sheets; lay summary proposed work

Restrictions on award funds: NIH restrictions apply with no faculty salary support; a six month no-cost extension will be considered; rebudgets approved by Office of Research

Expectations: Progress report/summary of achievements (including copy of resubmissions) prepared at conclusion of grant period.

Relevance to Heart: The Edward P. Stiles funds were given to LSUHSC-S for the purpose of encouraging research in Heart Disease and/or Cancer. Therefore, you must indicate the relevance of your proposal to heart disease and/or cancer in the body of your application for it to be evaluated.

Proposals funded by the Stiles endowment must have relevance to Heart Disease and/or Cancer.

If extramural funding for the same research project is received during the term of this award, any unused balance will be returned to the intramural program at the time of award.
LAY SUMMARY

Description: Use this section to summarize the research plan in lay terms, i.e., for non-scientists. Include the overall objectives, research strategy, and health relatedness of the project. This section should not exceed 200 words.
BUDGET PAGE

1. Personnel (include salaries and fringe benefits)

2. Supplies and Operating Expenses (Please Itemize):

3. Equipment (Please Describe):

4. Travel

5. Other Expenses (Please Specify):

TOTAL EXPENSES $ ________________
OTHER SUPPORT
(Use Continuation Pages if Necessary)

List, in four separate groups:

(1) active support; (2) applications and proposals pending review or funding; (3) applications and proposals planned or being prepared for submission; and (4) projects funded in the past. Include all Federal, non-Federal, and institutional grants and contract support. If none, state "none". For each item give the source of support, identifying number, project title, name of principal investigator, time or percent of effort on the project, annual direct costs, and entire period of support. NOTE: Clearly identify the application for which Bridging funds are being sought and provide a complete chronology of its previous submissions.

(1) ACTIVE SUPPORT:

(2) PENDING APPLICATIONS:

(3) APPLICATIONS PLANNED OR BEING PREPARED:

(4) PROJECTS FUNDED IN THE PAST 5 YEARS:
