This directory has been prepared by the Social Services Department of Louisiana State University Health Sciences Center - Shreveport as a comprehensive community resource listing of available city, parish, regional and some state-wide services available to patients within the Ark-La-Tex. These services cover a broad spectrum of needs on such topics as health, education, family sufficiency, child care, employment, mental health, substance abuse, and crisis intervention.

This directory is designed to help our staff ensure that the service delivery system is accessible to patients and their families. The Patient Care Services' Coordinated Care Division and the Hospital Switchboard shall maintain a hard copy of this directory.

Inclusion of an agency or organization does not imply endorsement, nor is the exclusion of an agency any reflection on its value or quality of services.
